Teaches

Penni

*Each little movement is of big importance,
and Natana shows Proul how to get most out
of them. A fur coat, glass, ping pong ball
...all these items help stripper learn the
basic rules of perfect balance and body grace.*

*DARK-HAIRED BEAUTY NATASA, IS A
POPULAR STRIPPER IN ALL PARTS
OF THE U.S.A. PENNI, WHO HAS ALL
THE ATTRIBUTES TO BE A STRIPPER
DECIDED TO LEARN HOT!*

DOUBLE HEADER

*This is
one of the
better bits in
European, showing
right now as well
from a strictly
European view. But
it may shock
up America. It does
not have the
same effect
on American
movie audiences*

The strip joints of Paris are of course considered to be the most lewd and smoky in the world, but the girls of London are giving the gay French a run for their money these days—and the wrong customers a heavy shake for their money at the same time. The London girls are recognizing at last something the French discovered a long time ago—that the money comes with the push and not the money comes waiting. The usual G-string lounge and go-go, so here there are two of the most successful practitioners of this art in London—Allison Harvey and Patricia Martin, whose act is a spectacle often involving two London "room maids" just preparing to hit the sack.

*This delightful duet shows how
only the barest essentials are needed
for a successful strip act—in
this case two beds, and two bodies!*

A Visit With Two Stars Of ZORITA'S

FAMOUS SHOW BAR . . .

Need A Pair Of Bookends?

HOW DO YOU LIKE YOUR BEAUTY ON THE ROCKS?

*Patty and Susette have hit it "BIG!"
since coming to Florida as two of the
main attractions at Earth's Show Bar!*

**PATTI WAGGIN (5FT. 2IN.)
AND
VALKYRA (6 FT. 4 IN.)**

Put them both together, and what have you got? A total of 10% less of fantastically exciting body. Each of these girls in her own way can start a man's blood pressure on the way up. Together? Watch out!

PUBLISHER'S NOTICE.

This booklet is presented as an aid to the artist, photographer, model and student of these studies. It is designed to enable him to further study the studies of the human figure—the fundamental basis of all art. It is the honest and sincere purpose of this publication to explain the lighting, form, contour, and drapery of the human figure in order to assist in making good and artistic reproductions and to aid the model in the learning of his art and pose.
